

THE ULTIMATE COLLEGE LIST BUILDER

Looking for Gems in a Universe of
736 Colleges and Universities

SMART STEPS TO FINDING GENEROUS COLLEGES

By Lynn O'Shaughnessy

Savvy College Planning 

What Colleges and Universities Are Likely to Give Your Clients Price Breaks?

You will eliminate a lot of guessing by using The Ultimate College List Builder.

Here is a summary of what you'll find in this guide:

- ✓ Average price breaks at 736 private and public colleges
- ✓ Percentage of freshmen receiving scholarships/grants at each school
- ✓ Identity of schools where most or all freshmen receive awards
- ✓ Identity of schools where many freshmen pay sticker price
- ✓ Explanation of what all these figures mean
- ✓ Six-step cheat sheet to finding generous colleges

Why You Should Use This List

Here are two practical reasons to consult this list builder:

No. 1: The list can help you encourage families to look at a larger universe of schools.

Some of you deal with clients with teenagers that have their hearts set on the same dream schools. These tend to be the same three or four dozen schools with impossibly high rejection rates that continually make these wish lists.

This list will allow parents to see that some or all of the schools that they are most excited about give little to no merit aid. High-income parents, for example, who can't cover the cost of an elite research university in the Northeast that doesn't give merit awards, will be able to see that many schools throughout the country would provide their children with merit scholarships.

No. 2: The list demonstrates that merit aid isn't just for "A" students.

Many parents worry that their children must be stellar students to receive scholarships from schools.

This widespread assumption has created a tremendous amount of pressure on students to be perfect. This list illustrates quite dramatically that you don't have to be an "A" student at most schools to receive help.

In reality, most students who attend public colleges and universities don't pay full price thanks to federal and state grants, as well as institutional awards.

The odds of receiving an institutional price discount are highest at private institutions. At private colleges and universities nearly 90% students receive scholarships and/or grants from the schools themselves, according to the latest annual tuition discount survey from the National Association of College and University Business Officers.

And due to the pandemic, there have been even better merit awards out there from many colleges that are worried about filling their freshmen slots.

According to the NACUBO, the average tuition discount that freshmen are capturing at private schools is at an historic high. The average tuition discount is 60.3% for freshmen.

Here's an example of how to calculate this: If the tuition at a private school were \$50,000, the student receiving the average discount of 60.3% would pay \$19,850.

The discounts are so high because college is actually a buyer's market at the vast majority of institutions.

What You Need to Know About the List

I used the U.S. Department of Education database ([IPEDS](#)) to generate the line-up of schools in this document. Here are the parameters that I used for the search:

- ✓ Non-profit private colleges and universities.
- ✓ State colleges and universities.
- ✓ Campuses that had a minimum of 800 students.
- ✓ Each school had to have a four-year grad rate of at least 38.8%. (This is the average graduation rate for state universities. Sad, but true.)

Once the search parameters generated a universe of 736 schools, I looked to see what percentage of freshmen at each of these colleges and universities received institutional grants and scholarships, as well as the average amount.

A Closer Look at What's Inside the List

To help you get the most out of this list, I am highlighting some important patterns to note, and how you can interpret the figures.

Schools Where Many Students Pay Full Price

Elite Colleges and Universities

While the vast majority of students at private schools receive price discounts, this isn't the reality at many of the most highly ranked private institutions.

To illustrate this phenomenon, I've provided examples where the percentages of students who receive price breaks are far lower than the average.

Percentage of Students Receiving Institutional Grants

✓ Wake Forest University 34%	✓ Duke University 46%
✓ Pitzer College 36%	✓ Boston University 47%
✓ Tufts University 38%	✓ Carnegie Mellon University 50%
✓ Barnard College 39%	✓ Morehouse College 50%
✓ Bates College 41%	✓ Villanova University 51%
✓ Middlebury College 41%	✓ University of Chicago 52%
✓ Trinity College 41%	✓ Columbia University 53%
✓ Wesleyan University 41%	✓ Emory University 53%
✓ Colgate University 42%	✓ Stanford University 55%
✓ Georgetown University 43%	✓ Reed College 56%
✓ Claremont McKenna College 44%	✓ Harvard University 57%
✓ Boston College 45%	✓ New York University 57%
✓ Cornell University 45%	✓ Swarthmore College 57%
✓ Dartmouth College 45%	✓ University of Notre Dame 56%
✓ Washington University (STL) 45%	✓ Rice University 60%

Explanation for Low Percentage of Institutional Grants

When you see private colleges and universities on the list that offer institutional grants to a relatively low percentage of students, it will usually mean one of two things:

1: The school only gives out need-based financial aid.

2: The school awards very few merit scholarships.

Institutions that score extremely high in *U.S. News & World Report's* college rankings don't have to try as hard to attract top students. So many wealthy students want to attend these highly rated schools that paying full price won't discourage them. Because of this strong demand, these institutions don't have to award merit scholarships or they can get by with offering a modest number.

What Does This Mean?

For Families Looking For Need-Based Aid

Private schools that provide little or no merit scholarships can be excellent institutions for smart students who require a great deal of financial help to attend college. A middle-class or disadvantaged student who gets into a school like Pomona, Amherst, Harvard or Yale should receive an excellent

financial aid package.

Don't assume, however, that all schools that provide little or no merit aid will automatically provide excellent need-based aid packages. Boston College, for instance, is typically not nearly as generous with its need-based aid packages as some other schools in its peer group.

After generating a list of potential candidates, it's extremely important that parents use an institution's [net price calculator](#) when evaluating the generosity of a particular school.

For Families Looking For Merit Scholarships

High-income students who attend elite research universities and the most highly ranked liberal arts colleges will usually pay full price or close to it. This reality can pose a dilemma for smart, wealthy students who are aiming for elite schools, but whose parents have not saved enough to pay for a school that can now cost more than \$75,000 a year!

High-income families, who find themselves in this predicament, should expand their search and look for schools that will provide wealthy students with merit scholarships. As The Ultimate College List Builder shows, most schools fall into this category.

Plenty of well-off parents unfortunately choose other options when their children get into trophy schools that they believe merit extreme financial sacrifices. They end up taking actions such as borrowing large amounts for college, raiding their retirement accounts and/or dipping into college accounts for a younger sibling(s). I've even heard of parents selling their home to enable their children to attend their dream schools.

Please discourage parents from taking these drastic steps!

I would urge you to give your clients and prospects a Savvy College Planning resource guide entitled, Does Where You Go to College Matter? You will find the PDF resource guide in the Clients References section of the SCP website. I suspect this will be eye-opening for many parents.

Other Schools Where Many Pay Full Price

Art Schools and Music Conservatories

One type of institution that doesn't get a lot of attention, but sport high price tags are art schools and music conservatories. Every year, the U.S. Department of Education releases lists of schools that charge the highest net price (cost of attendance minus the typical scholarships and grants) and every year the institutions that make this hall of shame list include a significant number of art and music schools.

You can find the top 5% of private and public institutions that charge the highest net prices by visiting the [U.S. Department of Education's College Affordability and Transparency Center](#). As you can see

in the following list, many of the most expensive private institutions by net price fall into the art or music category.

Institution	City	State
California Institute of the Arts	Valencia	CA
Landmark College	Putney	VT
Ringling College of Art and Design	Sarasota	FL
The New School	New York	NY
School of the Art Institute of Chicago	Chicago	IL
Jewish Theological Seminary of America	New York	NY
Art Center College of Design	Pasadena	CA
San Francisco Art institute	San Francisco	CA
Loyola Marymount University	Los Angeles	CA
New York School of Interior Design	New York	NY
The New England Conservatory of Music	Boston	MA
Emerson College	Boston	MA
Pratt Institute-Main	Brooklyn	NY
Otis College of Art and Design	Los Angeles	CA
Rose-Hulman Institute of Technology	Terre Haute	IN
Beacon College	Leesburg	FL
Savannah College of Art and Design	Savannah	GA

Arts schools and music conservatories often provide poor awards and some will also limit the percentage of students who receive discounts of any kind.

Schools Where Price Breaks Are Plentiful

Colleges and Master's-Level Universities

The schools that provide most or even all freshmen with price discounts will typically be liberal arts and baccalaureate colleges, as well as master's-level universities, where there are few PhD programs. In contrast, the schools least likely to provide merit scholarships are research universities.

Colleges and master's-level universities have to work harder by offering discounts to attract students

because they typically don't possess national brand names like so many research universities enjoy.

Schools Where Nearly All Freshmen Receive Discounts

Here is a small sampling of institutions where everyone or a large majority of students receive a price break:

- | | |
|---------------------------------|---------------------------------------|
| ✓ Bradley University 100% | ✓ Westmont College 100% |
| ✓ Centre College 100% | ✓ DePauw University 99% |
| ✓ College of Idaho 100% | ✓ St. Olaf College 99% |
| ✓ Drake University 100% | ✓ Truman State University 99% |
| ✓ Hendrix College 100% | ✓ Worcester Polytechnic Institute 99% |
| ✓ Gonzaga University 100% | ✓ Beloit College 98% |
| ✓ Goucher College 100% | ✓ Kalamazoo College 98% |
| ✓ Marquette University 100% | ✓ Lewis & Clark College 98% |
| ✓ St. Mary's College of CA 100% | ✓ Lynn University 98% |
| ✓ Stonehill College 100% | ✓ Connecticut College 97% |
| ✓ Valparaiso University 100% | ✓ Hillsdale College 97% |
| ✓ Wagner College 100% | ✓ Fairfield University 95% |

When the Statistics Are Less Reliable

State Universities

Unlike private institutions, state universities usually don't provide as large a percentage of its freshmen with price cuts. According to federal statistics, roughly 30% of students receive institutional money from the state schools themselves.

State universities are priced lower than private institutions so they don't need to offer as many discounts. In fact, one reason why private schools discount is to become competitive with state universities on price.

The percentage of students receiving institutional grants from these public schools won't necessarily provide the same helpful roadmap as the private institutions' aid practices.

This is because in some states the bulk of the aid comes from the state government rather than the schools themselves.

Turning to the same IPEDS data that was used to generate the overall list, I discovered that only 35% of freshmen received institutional grants or scholarships at the [University of Florida](#). This is misleading, however, because as you'll see 82% of students at the University of Florida received grants or scholarships from the state government.

University of Florida

Full-time Beginning Undergraduate Students

- Beginning students are those who are entering postsecondary education for the first time.

TYPE OF AID	NUMBER RECEIVING AID	PERCENT RECEIVING AID	TOTAL AMOUNT OF AID RECEIVED	AVERAGE AMOUNT OF AID RECEIVED
Any student financial aid ¹	5,946	91%	—	—
Grant or scholarship aid	5,779	89%	\$69,127,340	\$11,962
Federal grants	1,850	28%	\$10,629,264	\$5,746
Pell grants	1,379	21%	\$8,333,865	\$6,043
Other federal grants	1,691	26%	\$2,295,399	\$1,357
State/local government grant or scholarships	5,321	82%	\$45,961,823	\$8,638
Institutional grants or scholarships	2,286	35%	\$12,536,253	\$5,484
Student loan aid	896	14%	\$5,483,341	\$6,120
Federal student loans	876	13%	\$4,250,846	\$4,853
Other student loans	69	1%	\$1,232,495	\$17,862

- ¹ Includes students receiving Federal work study aid and aid from other sources not listed above.

Some state programs are centralized which means the bulk of the awards are set by formulas on the state level. States that use this system include California, New York and South Carolina.

Other states have a decentralized program – the governments set basic eligibility criteria but they provide the funding to the schools that exercise some discretion when making awards. States in this category include Colorado, Texas and Virginia.

Virginia Tech

I'm using [Virginia Tech](#) to illustrate a school where the percentage of students who receive aid from either the state or the institution itself is rather low. The percentage of students who receive awards from either the state of Virginia or Virginia Tech is significantly smaller than at the University of Florida.

Full-time Beginning Undergraduate Students

- Beginning students are those who are entering postsecondary education for the first time.

TYPE OF AID	NUMBER RECEIVING AID	PERCENT RECEIVING AID	TOTAL AMOUNT OF AID RECEIVED	AVERAGE AMOUNT OF AID RECEIVED
Any student financial aid ¹	5,043	66%	—	—
Grant or scholarship aid	4,526	59%	\$30,506,575	\$6,740
Federal grants	3,103	41%	\$9,776,578	\$3,151
Pell grants	1,049	14%	\$4,972,347	\$4,740
Other federal grants	3,043	40%	\$4,804,231	\$1,579
State/local government grant or scholarships	941	12%	\$4,664,402	\$4,957
Institutional grants or scholarships	3,840	50%	\$16,065,595	\$4,184
Student loan aid	3,115	41%	\$30,351,820	\$9,744
Federal student loans	3,035	40%	\$16,337,250	\$5,383
Other student loans	702	9%	\$14,014,570	\$19,964

- ¹ Includes students receiving Federal work study aid and aid from other sources not listed above.

Finding More Information on State Aid Programs

You can obtain links to the aid programs in the 50 states by visiting the website of the [National Association of Student Financial Aid Administrators](#).

Your Next Step in Researching a College's Generosity

Checking the odds of receiving a price cut at a particular school represents just part of the task.

Parents should also look at what the average need-based financial aid packages and merit scholarships are at an institution and compare that with the school's cost of attendance. (The list builder provides an average award, but these federal figures don't differentiate between need-based aid and merit aid.)

Let's take a look at why this is important by using two schools that both offer roughly the same average merit awards.

College of Idaho

This is a liberal arts college that has enjoyed high professor ratings in surveys from the Princeton Review.

St. John's University

This is a master's level university that is located in Queens, NY.

Here are the average merit awards at the two schools that are quite similar:

College of Idaho: \$22,903

St. John's University: \$24,876

Net Price

When I subtract the average merit award from each school's tuition and room/board charges these are the net prices:

College of Idaho: \$20,552

St. John's University: \$37,946

Obviously, the net prices are significantly different even though the merit awards are similar.

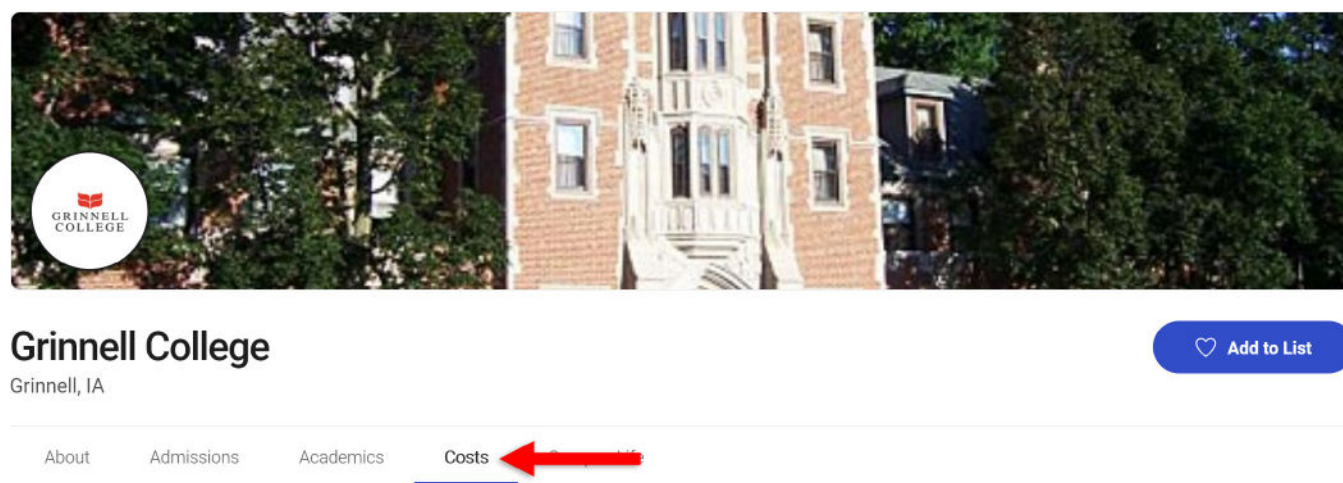

Look Closer at Prices

Examining the percentage of students who receive a discount, what the average discount is and the cost of attendance at individual schools can help families generate promising prospects.

You can discover a school's average merit scholarship and average need-based aid award, as well as the school's price tag, by heading to the [College Board's website](#). The College Board now requires that an individual create an account to access the website, but it's free. Once on the College Board website, take the following steps:

Step 1:

Type in the name of any school in the College Board's search box and then click on the *Costs* tab located at the top of the profile.

Step 2:

The College Board recently overhauled its college profiles and they are less helpful in terms of finding costs. Since the College Board is a membership organization of colleges that was probably the intent.

Visitors used to see the cost of attendance prominently displayed within the profile. Now you have to scroll down to find it and unfortunately the College Board no longer adds up tuition, housing, books/supplies, personal expenses and transportation which is what makes up a school's cost attendance. Parents will have to add those figures themselves.

What the College Board does display in the Costs section is the average costs and the average package. It also provides the average net price, but you need to take that with a grain of salt.

The College Board is using the federal net prices by income brackets, but these net prices are only produced for students who receive federal financial aid – either through grants for low- and middle-income students or loans so the number will be inaccurate for higher income brackets.

The income bracket system is also misleading because the highest income bracket is \$110,000 and above. The package someone might get with an income of \$110,000 could be very different for a household with an adjusted gross income that's double that amount or higher.

Rather than believe the published net prices on the College Board website, parents need to use an institution's net price calculator!

Step 3:

You'll want to check several financial aid statistics under the Costs section.

Look first at the statistic that says what percentage of financial need the school meets. As an example, I am using Grinnell College in Iowa, which offers excellent financial aid and decent merit scholarships, which is a rare combination.

Grinnell says it meets 100% of a student's demonstrated financial need. The Savvy College Planning resource entitled, The Ultimate List of the Nation's Most Generous Colleges, notes that just six dozen schools or so meet 100% of a student's demonstrated financial need.

The higher the percentage of need met figure is, the better.

In the following Grinnell example, 66% of students applied for financial aid and 100% of the students who were determined to have financial need received assistance and got 100% got their demonstrated need met. That is as good as it gets and is the gold standard – everybody who had financial need got their full need met!

Financial Aid

Financial aid can include grants, loans, scholarships and work-study jobs. Financial aid packages vary depending on your financial need. Most colleges determine financial need based on your FAFSA.

Distribution Details

Students Receiving Financial Aid	66%
Freshmen With Need and Received Financial Aid	100%
Percent of Need Met	100%

Aid Package Details

Average Aid Packages Awarded	\$49,436
Need-Based Scholarship or Grant Award	\$45,266
Scholarships and grants don't need to be paid back.	
Need-Based Loan Amount	\$4,215
Loans must be paid back.	
Non-Need-Based Aid	\$15,829
Debt at Graduation	\$18,352
The typical amount of loans a student must pay back.	

In this section, you'll also discover what the average merit aid award is. You see this referred to as Non-Need Based Aid, for high-income students that the aid formula said had no financial need. The average merit award is \$15,829. That is not a high award, but it is better than most elite schools that have excellent financial aid policies like Grinnell, but typically give little to no merit aid.

The Ultimate College Builder Cheat Sheet

Use The Ultimate College List Builder to help your clients identify schools that could represent financial fits for your families.

Here are six steps to follow:

Step 1:

When money is a concern, pay attention to schools on the list builder that provide a large percentage of students with discounts. Students will enjoy better odds of receiving a price cut at these institutions.

Step 2:

With the list builder note what a school's average award is and compare it to the price of the institution. Keep in mind that the average awards you see on the list builder do not separate out merit aid from need-based aid, but the College Board does provide this information.

Step 3:

If financial aid is a necessity and the child is a stellar student, also check out the schools on the list builder that chiefly or exclusively dispense need-based aid. You will find these schools (nearly all elite institutions) among those that provide a lower percentage of students with price cuts.

Another option that's easier is to look at the guide, entitled, The Ultimate List of the Nation's Most Generous Colleges, in the Client References section of the Savvy College Planning's website.

Step 4:

You need to focus on more than just the percentage of students who receive scholarships or grants and the average amounts. Look at what a school's average merit aid and average need-based awards are. The College Board's website provides this information via a school's profile.

While on the College Board's website, check out the percentage of demonstrated financial need the school typically meets.

Step 5:

It's crucial that you use a net price calculator for each school that interests your teenager. Average awards can be a helpful guide, but you need to get a firm estimate of what a particular school will cost you before your child applies.

Step 6:

Ideally, your child won't finalize his/her college list until you have generated net price calculator results for each institution and, where necessary, eliminated unrealistic options.

Percentage of Freshmen Receiving Institutional Aid

	Size (All Students)	4 Year Graduation Rate	Freshmen Receiving Institutional Grants	Average Amount of Institutional Grants for Freshmen	Acceptance Rate	6 Year Graduation Rate
